### SAFETY PRECAUTIONS

Please take time to read the *important* instructions in this booklet. Observing the step-by-step instructions and complying with the warnings will be your personal guarantee to greater satisfaction over a long period of time.

### SAFETY PRECAUTIONS

1. Avoid subjecting this high precision GAME PAK to extreme temperature variances. Store at room temperature.
2. Do avoid touching terminal connectors. Keep clean by inserting GAME PAK in protective storage case.
3. Never attempt to disassemble your GAME PAK.
4. Use of thinners, solvents, benzene, alcohol and other strong cleaning agents can damage the GAME PAK.
5. For best results, play the game a distance away from your television set.
6. Pause for 10-20 minutes after 2 hours or more of continuous game playing. This will extend the performance of your GAME PAK.

Nintendo recommends against using a rear projection television with your NES as image retention on the screen may occur.

### HELPFUL GAME-PLAYING HINTS

A thermometer-shaped **MEGA MAN** "Energy Meter" appearing upper left in game-playing scenes serves to monitor **MEGA MAN**'s power levels. If and when **MEGA MAN** is bodily struck or hit with enemy projectiles, degrees of energy are lost.

Conversely, the player's **MEGA MAN** power is boosted by winning energy capsules.

A Magnet Beam will appear during the middle of the Elecman stage. Snare the Magnet Beam to create steps for climbing upward.

The Iceman stage offers real challenge when square-shaped steps quickly appear and disappear on the backdrop. When **MEGA MAN**'s jumps and leaps are timed perfectly, he's able to scale walls and press onward toward defeating empire leader Iceman.

Each time **MEGA MAN** successfully out-duels each of his six foes, he acquires new firepower he will need as **MEGA MAN** enters final stage seven to defeat evil Dr. Wily.

Ah! **MEGA MAN** must use the newly-acquired armament wisely, for he can use them just once while engaged in battle with Dr. Wily.

### THE MEGA MAN STORY

It's **MEGA MAN** versus the powerful leaders and fighting forces of Monstropolis — that strange multi-faceted land of robot-like Humanoids.

Brilliant scientist Dr. Wright conceived the construction of fully-operational human-like experimental robots to perform specific everyday duties. Dr. Wright, and his assistant Dr. Wily, encouraged with their very first near-human robot — **MEGA MAN** — proceeded to develop six additional Humanoids, all programmed to perform prescribed rituals:

**Cutman:** Designed to function as a lumberjack. Powerful saw-toothed scissor-like instrument protrudes from head, capable of gnawing through giant forest timbers.

**Gutsman:** A bulldozing character capable of lifting and transporting huge boulders.

**Iceman:** Impervious to chilling sub-zero temperatures, capable of human-like performances under extreme climatic conditions.

**Bombman:** A real "blast-er" as a heavy duty laborer who uses intensely powerful explosives to clear lands for Dr. Wright's construction projects.

## ENTERTAINMENT SYSTEM

**Fireman:** Melts and molds metals with flame-throwing torch flaring from atop his head.

**Elecman:** Dr. Wright's electrifying creation — planned for conducting electrical operations — even supervising nuclear power plants.

But, with the exception of **MEGA MAN**, all of Dr. Wright's near-human robot experimentation went awry. Assistant Dr. Wily turned disloyal, re-programming Dr. Wright's Humanoids, now bent on destroying opposition so Dr. Wily could control the world and its resources.

Resisting re-programming, **MEGA MAN** is chosen the defender of the universe and its inhabitants. **MEGA MAN** dares to single-handedly penetrate seven separate empires of Monsteropolis, eliminating the leaders and followers of these sovereignties.

Get ready for some very exciting challenges!
